Scene Study

Sunday 2pm, CPDW, Class Pass or \$10

Analyzing a scene and working out what you need to do to bring a script to life is fundamental to an actor's craft. In this workshop, we'll learn to quickly identify the underlying forces moving the characters and the narrative and then discover ways to bring those scenes to life in dynamic, nuanced performances. After the class, consider performing in our Scene Showcase that afternoon. Bring scenes you wish to work on and we'll provide some for you as well. Ages 16 & up.
